## ABOUT

Aspiring and eager to learn entry level web developer with an unyielding work ethic. Ability to think quickly and communicate efficiently and effectively as well as work in small or large groups productively. Passionate about learning new languages and honing my skills as a developer.

## EXPERIENCE

### Developer

Guest Research Inc.  
2018 to Present

- Created responsive UIs by refactoring HTML email code given by clients to make it responsive and compatible in all email clients
- Developed responsive and creative email designs based on specific clients needs
- Proofread email content proficiently before turning sources live
- Brought cross-browser consistency to UI components for our online surveys by using HTML and CSS
- Brainstormed and proposed ideas to completely redesign our Management Reporting System website
- Wrote SQL queries to retrieve data from our databases

### Administrative Assistant/Paralegal

Law Offices of Andrea Black  
2014 to 2018

- Managed 20 - 30 active cases at any given time
- Transcribed, proofread and edited extensive legal documents
- Trusted to handle payment transactions and keep records of same
- Responsible for all the filing and maintenance of all clients files including confidential documents and information
- Answered phone calls and replied to emails promptly and professionally
- In charge of all scheduling and appointments
